

# Location LOCATION Location

Location in the supply chain can save you time and money when it is used strategically and can cost time and money when it is not. We've learned the secret to location is through consolidation. Find out exactly how!

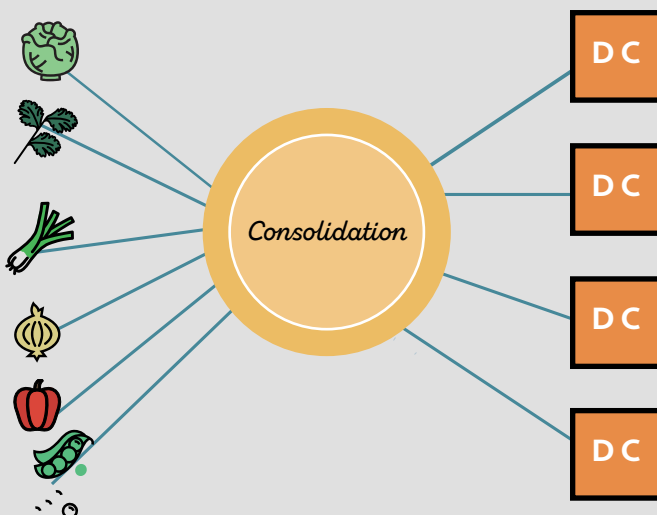

## IN THE RIGHT PLACE!

Instead of multiple stops that multiplies the hours with each stop, product is picked up at a consolidation facility.

Current Supply Chains

Optimized Supply Chain

## ACCESS TO EVERYTHING!

Consolidation gives you access to more vendors, variety, and product in stock that is ready to order without the shipping time from Mexico.

## SMOOTHS TRANSITION

While the industry is packing up and moving people and equipment, consolidation facilities remain open providing a helpful pick-up buffer on orders.
